**Large Breed Dog Rescue**  
**MOTE PARK WALKS 2011**

## Fund-Raising Dog Walks Suggested donation: **£2 per dog**

Join our fun walk and help another dog by raising funds for the Large Breed Dog Rescue. Bring a friend (2 or 4 legged), the more the merrier!

### WHERE AND WHEN

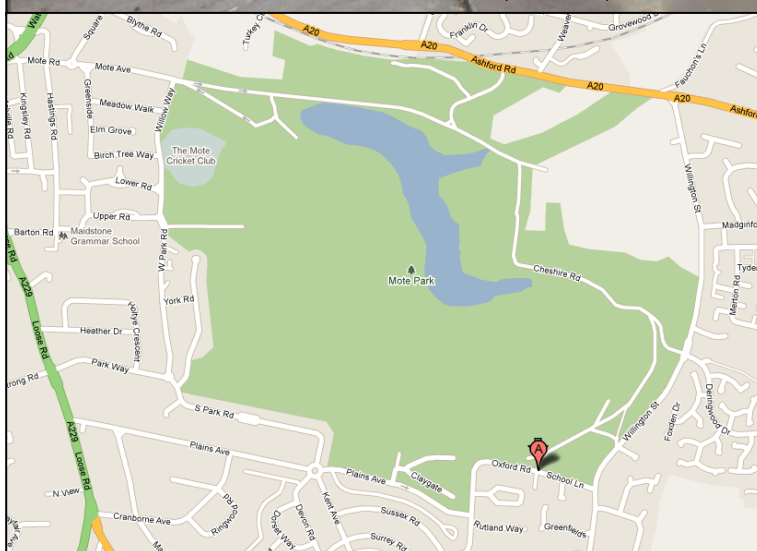

The walks take place in Mote Park, Maidstone, starting at the School Lane entrance car park on the south side (free parking - postcode ME15 8DU), AT 10 A.M. ON SUNDAYS:

13 <sup>TH</sup> FEBRUARY	14 <sup>TH</sup> AUGUST
13 <sup>TH</sup> MARCH	11 <sup>TH</sup> SEPT
10 <sup>TH</sup> APRIL	23 <sup>RD</sup> OCT
8 <sup>TH</sup> MAY	20 <sup>TH</sup> NOV
19 <sup>TH</sup> JUNE	18 <sup>TH</sup> DEC
17 <sup>TH</sup> JULY	

The walk is approximately a mile (the dogs run much further than that!) and will last about one hour. There is a gentle ascent for about 500m towards the end. It is suitable for powered wheelchairs and mobility scooters during the summer months, when not muddy, though there is some uneven ground. The walk passes by a lake so be prepared for a wet dog!

### INFORMATION, REMINDERS AND WARNINGS

- Dogs of all shapes and sizes are very welcome, though aggressive, over-boisterous or nervous dogs should be kept under close control or on a lead, and muzzled if necessary.
- Dogs must have a collar or harness and a valid ID tag and should be kept on a lead in the car park area. Off-lead exercise will be encouraged on the walk and dogs should wear a bandana (provided free of charge, so we can identify our group of dogs).
- Bitches in season should wait until a month later before joining our walk, otherwise the boys can become a bit leery and cause trouble!
- We shall meet other walkers, dogs and cyclists on this walk - please be prepared to put your dog back on the lead temporarily if necessary - there may be quite a few dogs in our group that some people may find intimidating and we are doing our best to promote the Rescue organisation.
- Please note that participation is entirely at your own risk.
- We strongly recommend that you take out pet insurance in case of any accident or injury.
- We advise microchipping as a safeguard in case anyone goes missing.
- Mote Park is home to many foxes that may transmit mange - we advise using a vet-recommended treatment to prevent fleas, mange and other parasites.
- Mote Park has its fair share of rodent life and has abundant water; this combination increases the risk of Weil's disease. Puppy and adult dog vaccinations will protect against Weil's disease.

Information about, and photos from the walks are posted on the Large Breed Dog Rescue website forum: <http://lbdrr.usersboard.com/f4-news-events>; navigate to the appropriate Mote Park Walk.
